## DISCUSSION ON THE SINGLE TAX

**Representatives of Smaller Towns Say That It Greatly Out-Down Assessment.**

**INNISFAIL WARMLY GREETS VISITORS**

**Attendance at Convention of Alberta Municipalities Largest In History.**

**Bulletin Staff Reporter.**

Innisfail, Sept. 11.—With the roll of delegates in attendance increased to over sixty, representing nearly thirty municipalities throughout the province, the afternoon session of the eighth annual convention of the Alberta Municipalities opened yesterday morning with a very busy appearance. Every delegate was there, and as a result of the work done, a resolution was passed and a report of resolutions was discussed and voted on.

The agenda of the C. E. R. permission to issue additional stock, the question of housing "industries" in the west, the proposed municipal tuberculosis sanatorium and the appointment of an agent to administer the same, the reorganization of the municipalities were some of the matters under discussion.

The amount of single tax proposed by each town, the total revenues presented was that it may be all right for the others, but that it may not fit the needs of the town and for that reason the federal representatives of the small towns and villages was that under single tax, their assessment had decreased and tax rates running as high as 75 and 80 mills on the dollar have to be collected. The single tax in a few instances the revenue is proving insufficient to meet the demands of major expenses.

**Resolutions Beat With Single Tax.**

Two resolutions were passed dealing with the provincial government's recent permission to issue additional stock, the single tax and the single tax in Alberta towns. The first was: "That in the opinion of the convention the single tax should be given to the towns and villages be given the privilege of augmenting their revenue by collecting business taxes, and issuing license fees."

The second was really an amendment to a resolution adopted by the convention to adopt the single tax system of taxation in the province. The resolution was: "That the single tax be imposed on the municipalities and the imposition of the land tax alone."

Delegates Galbraith, H. D. Head, and Mr. G. L. McNeil supported the single tax.

"This single tax came upon the town suddenly," said Mr. Head, "we appreciate the efforts of the government to have a more equitable tax system, but we believe that the single tax is well suited to the needs of the municipalities. Tax rates today in many of the smaller places are running in the way of 75 and 80 mills on the dollar, and this sounds bad, to say the least. Some of us are getting bold, wounding our pride, in suggesting that the members of the legislature are not to be held blameless for their single tax, but as far as we are concerned, this would hit the town."

**Step in Right Direction.**

Mr. Galbraith thought that single tax was the right direction. It was a step towards direct taxation. It was a step towards direct taxation and he hoped to see direct taxation not only in Alberta, but also in the provinces and the whole Dominion. "Then we will be relieved from the burden of taxation as to how much we are to pay as to how we are to pay it," he concluded.

Mr. Galbraith quoted from William Short's article in the *Bulletin* on the single tax. Mr. Short's definition of this tax was that it was an effort to get at the people's pockets directly in order to tax it. Mr. Galbraith thought that there were business firms in small towns that were doing a trade for \$10,000 worth of stock, and were paying no tax at all. There ought to be some method of enabling them to take their share in the upkeep of the town.

Mr. MacKenzie of Edmonton, a farmer and capitalist, said he did not believe in the single tax at all and declared that there was not an economic reason why the world of America or Europe that would ever care single tax alone.

"In Germany," said Mr. McNeil, "as far as I know, there is no ability to pay, not according to the amount of real estate he owns. The amount of real estate he owns, it would be far better to allow the farmers themselves to decide whether or not they want to pay the single tax."

The only proper method in which to tax the people is everything possible. He thought that legislature had been wise in their action in passing the "Town Act."

**Steider Mayor's Attitude.**

In supporting his resolution that the government amend the Towns Act,

he said, "I do not believe in the amount of real estate he owns. The amount of real estate he owns, it would be far better to allow the farmers themselves to decide whether or not they want to pay the single tax."

Princess Patricia has made several trips to the West, and has recently escaped with her life in the valley of the Bow River below the Banff Springs Hotel.

John Duthie is an enthusiastic golfer and is a better player than the Duke. He had intended to stay at the Bow River Inn, but decided to run to Banff by daylight so as to miss most of the scenes and was unable to get a room. He had already planned his trip to Banff by daylight.

By Bulletin Leased Wire.

Sept. 11.—Perfect weather conditions to make the start here of the Canadian Conservative Association's "Any One Can Make Trip to Banff by Daylight."

Their Royal Highnesses Ride, Drive and Play Golf and Are Enthusiastic About Scenery—Anns. U.S.A. Set to Make Trip to Banff by Daylight.

Their Royal Highnesses Ride, Drive and Play Golf and Are Enthusiastic About Scenery—Anns. U.S.A. Set to Make Trip to Banff by Daylight.

In a few instances damage from sprouting in the heat of the sun.

On the whole the present outlook is more encouraging. There is the west a vast amount of grain, and the market is good. It is to grow.

All experts have a confident optimism that speaks well for the prospects of this year's harvest.

**Golf Task Exploded.**

Regina, Sept. 11.—Daniel Egan, a golf enthusiast, who narrowly escaped with their lives this afternoon when the gas tank in the house of Edmund F. and Freda L. Varnell exploded with terrific force, badly wrecking the house and severely injuring both men.

At making the adoption of the single tax optional with each law May 1st, the government of Alberta did not believe in the new system either in theory or practice. Steider showing how that state has got off compared to the old system, and that the new system is the old system an assessment of over one million dollars. This year it is about 100,000, and next year it will be 100,000, with the intention of raising \$5,000. That means a tax rate of about 25 mills and seven years hence, a short 15,000. We will see what happens. We have seven pieces of business in Alberta counting everything. One of the remaining forty wanted to be left out, but we could even leave them because and so collect from them this way," said Steider.

Mr. Clarke's views.

Mr. Clarke, a member of the executive committee proposed the idea of making the new system optional. He thought there could be no objection to it, and that if in certain individual instances.

(Continued on Page 12)

## IDEAL WEATHER FOR HARVESTING

With Cloudless Skies and Brilliant Sunshine Grain Yield Being Garnered.

**TEMPERATURE CLOSE TO MIDSUMMER HEAT**

Grain and Other Crops Reported Untouched by Any Trace of Frost.

At the present moment, the farmers of Edmonton district are probably the happiest and the same time the most successful in the Dominion of Canada. Their good humor is due to the ideal weather conditions which have prevailed ever since last Friday. They are busy harvesting the enormous crop which they are harvesting.

Edmonton district has been blessed with a remarkably fine period of harvest weather. Cloudless skies with Old Sol dispelling the mists which had covered the earth during the latter part of last week and all of the present week to date. The temperature has approached midsummer heat during the past few days. Yesterdays' maximum was 78 degrees, while the exact figure being 78 degrees, while all week it has been hovering between 65 and 75.

Even the slight patches of frost which have developed by this morning, and the garnering of the crops is now assured with fine weather for a few days. So warm was the sun yesterday that straw hats which had been temporarily laid aside were again put on the capricious.

Even the slight patches of frost which have developed by this morning, and the garnering of the crops is now assured with fine weather for a few days. So warm was the sun yesterday that straw hats which had been temporarily laid aside were again put on the capricious.

**Big Cattle Dead.**

Lethbridge, Sept. 11.—During the night, Saturday, in Calgary, Bay Knob, the Knight Sugar company, bought from Mr. Muirall, of Okotoks, a team of cattle which were shipped to Southern Alberta this fall and stabled on the Knight ranch.

**New Steel Building.**

Toronto, Sept. 11.—Plans for the Dominion Bank building to be erected in the new King Edward Street, and running south to Melville street, are nearing completion. The plans will call for a two-story building to be one hundred and twenty feet long and imposing bank structures on the completed.

**Biggest.**

Liverpool, Sept. 11.—The White Star company announces that its new 60,000-ton steamer will be named *Prinzess Cecilie*. It will have a complete deck, and will be the largest and fastest ship ever built.

**AMERICAN.**

Another Aviation King.

Chicago, Sept. 11.—Aviation King, the name of the new holder of the American dirigible rights record, is dead in a fall with a biplane, tonight while flying in a gale winds.

**Well Advanced in South.**

By Bulletin Leased Wire.

Lethbridge, Sept. 11.—The crops in southern Alberta are fully two weeks further advanced than those in the northern portion of the province. The wheat crop is in the hands of the grain companies, and the grain companies are the largest in the province. The crop conditions in this province are excellent, and the same as last season provided of course that frost or hard snow does not sweep the field side during the next few weeks.

"In the Lethbridge district, and in the south, the wheat crop is in the hands of the grain companies, and the same as last season provided of course that frost or hard snow does not sweep the field side during the next few weeks.

There is an immense amount of work to be done in the south, and the minimum time only one day, week for council meetings. Furthermore, it has been concluded that all fell seasons should be beyond talk. It is really that the constructive policies and plans which have been made for the future of the province will be harvested safely. Everything looks fine and prospects are looking bright.

**Alberta Given Subsidy of \$26,000**

Alberta is given with the Federal Authority, Wherry Motion of Senate Voted to Encourage Agriculture is Secured.

By Bulletin Leased Wire.

Ottawa, Sept. 11.—The Alberta government has signed the agreement with the federal authorities which had been reached in the Senate to encourage agriculture.

Every provision except British Columbia has now arrived with the subsidy and has reached an agreement as to the way in which the money is to be used.

The total amount of the subsidy is \$26,000,000 and according to the agreement which has been signed, the money will be spent as follows:

Dairy improvements, \$10,000,000.

Stock improvement, \$1,000,000. Livestock demonstration, \$20,000; experiments to the experimental farm, \$2,000; to the experimental farm, \$2,000; exhibition, \$2,000; advertising, \$2,000; expenses in bringing in cattle to sell to farmers, \$2,000; hire of cattle, \$4,000.

**Light Dawns on CONSERVATIVE M. P.**

Ottawa, Sept. 11.—A. E. Fries, Conservative member of parliament for Ottawa, who had been a member of the cabinet in the last ministry, has resigned.

In the West, declared that it will be necessary for the Conservative party to have a conference with the members, more particularly as they affect the four Western provinces.

**Task Exploded.**

Regina, Sept. 11.—Daniel Egan,

a golf enthusiast, who narrowly escaped with their lives this afternoon when the gas tank in the house of Edmund F. and Freda L. Varnell exploded with terrific force, badly wrecking the house and severely injuring both men.

## TELEGRAPHIC BRIEFS

By Dorothy Leanne Wren

CANADIAN.

Killed by Street Car.

A man was killed and another injured under the wheels of a motorcar at Whitehorse, B.C., eight miles from the town. The victim was torn in half above the knee, and his head was broken. He died an hour later.

Summons to Victoria.

Hatfield, east of Victoria, H. M. C. S. Nichols, has left for Victoria. Mr. C. H. C. having been summoned home by telegram an hour ago, was released from his office by his employer, Mr. Nichols, of Victoria.

Jumped From Fourth Story.

Gatineau, Sept. 11.—A telephone operator, Mrs. Mary Smith, of the fourth floor of a Mountain Hill house, Gatineau, was found hanging from a beam in her room. Her employer, Mrs. Mary Smith, of Ottawa, was present.

Used Coal Oil in Light Fire.

Toronto, Sept. 11.—So seriously injured in her recovery from appendicitis that she has been unable to leave her home, Mrs. Eva G. Smith, of Toronto, has been admitted to the hospital with face and neck severely burned from a coal oil lamp.

## ENGLISH CAPITAL FOR PEACE RIVER

Old Country Financiers Now Visiting City Are Turning Attention to North.

## THEY LOOK FOR GREAT FUTURE FOR EDMONTON

Will Enter North Country As Competitors of Hudson's Bay Co. in Fur.

Considerable augmentation of the inflow of British capital to Western Canada is likely to accrue shortly as a result of the visit here of the party of the vice-chancellor of Cambridge and parliamentarians who are touring the west as the guests of A. G. L. Macmillan, president of the University of Alberta.

Macmillan, who is the most highly regarded publicist in the country, although greatly interested in mining, is particularly interested in the development and the growth of the country. In addition to the financial interests of the party, there is a strong interest in the future of the city.

John D. Ruth, of Kansas City, brought fraternal greetings to the visitors from the vice-chancellor of Cambridge and parliamentarians who are touring the west as the guests of A. G. L. Macmillan, president of the University of Alberta.

Ruth, who is the most highly regarded publicist in the country, although greatly interested in mining, is particularly interested in the development and the growth of the country. In addition to the financial interests of the party, there is a strong interest in the future of the city.

# MIRROR:

CENTRE OF MIXED FARMING DISTRICT  
SUMMER RESORT and SPORTSMAN'S PARADISE

Situated on the branch line of the Grand Trunk Pacific between Edmonton and Calgary on the shores of the beautiful Mirror Lake, the little town of Mirror today presents a scattered, uninteresting appearance. But during another month has passed the business here will be moved to Lake Street, and a number of fine buildings will be completed. Mirror practically stands to-day as it did when the first settlers came, but the town is now a center under cultivation and has five thousand dollars worth of cattle.

Mr. J. J. Cattin, who owns in the town a large farm, has a herd of 140 head of stock, and 175 acres in crop. Mr. E. G. Cook has tenanted a fine farm and has a herd of 140 head of stock, and 175 acres in crop. Mr. T. R. Hilde is the champion vegetable grower in the district, his last town last week was nine varieties of extraordinary small carrots weighing 10 pounds each, and 150 pounds each. He is getting in on the ground now, having started his work only six weeks ago and has almost completed the building of a timber shed to store his vegetables. The town is throughout up to date and fitted with all the conveniences of the trade.

#### Hotel Is Described.

The building of the hotel being put up by Mr. T. W. Cook, of Woodworth, is nearly finished. It will be a large affair, covering two and one-half acres of material, and is now under way again. The hotel will have 100 bedrooms, which will cost \$25,000, stands near the G.T.P. station, and will be a modern hotel, with every modern convenience.

Mr. C. H. Brewster, a lumber yard and saddle another office to the town, has a fine farm, and is putting up a fine home. All over the town little shacks are giving way to more substantial dwellings.

#### Incorporated As Village.

Incorporated as a village only one month ago, the members of the council meeting at J. J. Cattin's residence, Mr. H. H. Hermin, is already putting their heads together to solve road problems, water supply, drainage and electric and lighting propositions.

Elida Lethbridge is well known throughout the country in various agricultural circles. She is a member of the Lethbridge Agricultural Association, covering the surface of the lake like a sheet of green grass, and is now overgrown. Prairie chicken and pheasant abound in the surrounding hills, which is about twenty-two miles long and eight miles wide.

Lake Mirror is a great attraction on its shimmering expanse, and brings in many tourists. The lake is now in full flower, contrasting with the gigantic white pine trees which are growing.

The beautiful lake is destined to "wash its sweetness." The Trans-Canada Trail, which is being built, is destined to place its allurements prominently before the tourist. The beach of smooth white sand has been laid out by the famous landscape architect, Mr. A. E. Johnson, and the golf course, tennis courts, swimming pools, etc., are all in full flower.

A glance at the plans for beautifying of the lake shore, the beach, and the park, will show that such a lake and beach property advertising itself to the world.

When placed on the market these properties will bring in a large amount of money, and will be a great attraction to the farmer.

No wonder then that the business men of the town are so optimistic, that the farmer shakes his head with a smile when offered a price for his land, or when he sees bright visions of Mirror the City.

#### ATHABasca.

Bullock News Service.

The results were received over the N.W. wire yesterday on Tuesday of this week. The regular service for the present year, will be a round trip three times each week from Edmonton. The first train carries much freight and three coaches each of which holds 100 passengers. Every car has also been crowded with passengers, and been accumulating the mail from the stations en route to deliver all to the steamer agents.

Wednesday was a record day for the Athabasca River. On that day they moved 210 tons of freight from the cars to the various stations, and the work of loading was all done by less than a dozen teams. An outsider can have no com-

plaint of the amount of freight for the north country that is handled from this point.

The new board of trade samples the grain market daily.

The present night and day market is a great success, and the farmers, who are busy with their crops, are gratified.

The annual fair of the North West Mounted Police will be held this month next Saturday, the 15th. The C. N. R. will run a train to town to meet the fairgoers, and the event is to be a great success.

This fair promises to be a big success, and the town is looking forward to the opening.

Material is being brought in rapidly by the C. N. R. and the long trip is now broken.

#### SWALLOWS REPORT.

The crops of swallowtail are looking well and the yield promises to be heavy, though the weather has been favorable for the harvest.

FINE WEATHER AND  
BIG CROWD FOR THE  
FAIR AT WABAMUN

Fourth Annual Exhibition Is Favoured With Perfect Weather Conditions.

MIXED FARMING EXHIBIT  
ONE OF HIGHEST ORDER

3-Pound Pumpkins and 14-Pound Turnips Are Shown—The Prize Winners.

WITH OLD Set in his most amiable mood and not a cloud to mar the perfect blue of the sky, the Wabamun Agricultural Fair opened its doors yesterday morning. At 10 o'clock upwards of 700 people gathered in the fair grounds. A gay crowd, farmers and their wives rejoicing in the excellent weather, and visitors on horseback, in traps and automobiles from the Muskowewewas in full war paint. The exhibition hall was turned open, the exhibits, especially the vegetables and dairy class were set up before a popular audience of 1000. Among the exhibits were vegetables and dairy products is the rule, not the exception.

The first class showed some amazing pumpkins, weighing from 20 to 28 pounds.

Mr. Bennett had a fine exhibit of potatoes grown from English seed. Mr. Bennett finds that those do very well in the soil. He has been growing all size each year, but in fact every potato exhibited was a prize winner. The best was a 3-pounder. The best in the class on show. Cabbages were also in the front rank, some of those weighing 10 pounds. Mr. G. Hopkins, weighing from 9 to 11 lbs. An exhibit of scarlet runner beans was shown. The largest beans were green peas were also very worthy of comment.

Mr. Hadley's cardigan and cotton sweater won the turpits, some of which weighed as much as 25 pounds.

There was a very small showing of grain or compared with last year, owing to the harvest being later, but that of the wheat class was excellent. The silver cup donated by G. C. Light was not awarded because of the lack of entries.

As compared with the preceding years the dairy exhibits this year also were excellent. In the cheese class the farmer is wisely giving more attention to this department. There was a good showing of butter, cheese, etc., on show, the various crocks found their way to Edmonton in the evening, and were sent to the various motion houses who know a good using when they see it.

The best in the class of jam made from wild fruit testify to the efficiency of berries in this district. It is evident that the farmer who has bread and good bread too, if one may judge by the number and quality of entries in this line. It is evident that the farmer has not much time for fancy work. This department had the poorest showing of any. The best entries were in the jam and there were quite a number of entries in the children's work.

Western Canada Lands Co. showed a very fine team in harness for which they carried off the silver cup.

Mr. Brattwad had some painted Holstein on exhibition and F. Pegrum, Mr. G. Hopkins, Mr. G. Light, Mr. E. Miller had a pen of very excellent pigs.

Mr. J. Pickering and L. C. Johnson received most of the prizes for poultry and Lister Miller and the Western Canada Lands Co. divided the bacon.

The Edmonton editor's hand kept them busy between races, all of whom were lively part in with great abandon.

Throughout the long weeks after-rowing, the editor's hand was in the refreshment booth on the grounds, finding the cream and sugar and the like, and the editor's hand was taken care of. The president, G. G. Light, and See. Treas. E. B. Miller, were present and were compensated on the expenditure.

During the latter part of the evening a dance was held in the upper exhibition hall, the Edmonton Citizen's band supplied the music. On the whole, the fair was a success, a very successful day for Wabamun, the excellent weather enabling the people to carry on their pleasure to the full. The complete price list, in order of merit, is as follows:

**Regulated Parchment Stallion—Western Canada Lands Co.**

Four year old mare—Western Canada Lands Co.

Yearling colt—F. Pegrum, H. T. Smith.

**General Purpose.**

Team in harness—Western Canada Lands Co.

3-year-old foal—L. Hadley.

Mare, four years old and over—W. M. Steffens, Western Canada Lands Co.

Gelding, four years and over—Western Canada Lands Co.

Gelding, 3 years old—H. H. Hopkins, A. G. Hopkins.

Mare, four years old and over—F. Pegrum, H. T. Smith, F. Pegrum.

Fool—F. Pegrum, Mr. H. T. Smith.

Driving team in harness, over 14 1/2 hands—W. M. Hoffier, W. G. Ihssen, S. H. Ihssen, W. G. Ihssen.

C. V. Ihssen, W. M. Steffens.

Saddle pony, under 14 hands—H. T. Smith.

Jar of jelly from wild fruit—Mrs. H. T. Smith.

More, and foal, under 14 1/2 hands—S. H. Ihssen.

Castles—Registered Ayraurs bull—Western Canada Lands Co.

Canadian Land, Mr. H. Hopkins.
